

Timberwise

Quality wooden floors from Finland.

WE PRODUCE SINGLE
PLANK WOODEN FLOORS
THAT LAST FROM ONE
GENERATION TO THE NEXT.

THE FOUNDATION OF GOOD LIFE

The floor is one of the largest surfaces in your home. It is present in every room, and you can feel it under your feet. The life cycle of a good floor is measured in years, and the best floors in decades. We here at Timberwise produce single plank wooden floors which last from one generation to the next.

FINNISH TIMBERWISE

Timberwise is a family-owned company established in 1999 in Loimaa, Finland. We produce wooden floors for people who value natural, safe and high-quality Finnish work. Our products are created by combining the best raw material in the world with Finnish carpentry and highly automated manufacturing methods.

OUR VALUES

To us, Timberwise is much more than just a company. It is our life's work, founded on our common values: Finnish wood processing expertise, sustainable development and safe products. Our values are seen and felt in thousands of homes every day.

MADE IN FINLAND

Our tightly-knit and natural relationship with wood as a construction material has made Finland a world leader and an international pioneer in wood processing. We are proud of the Finnish wood processing tradition, and we want to cultivate this shared legacy into the future. That's why our products are made in Finland..

SUSTAINABLE DEVELOPMENT

Our wooden floors are made of ecologically and ethically grown wood. We save natural resources by reusing and recycling our production by-products and waste. We favour carbon dioxide emission-free and renewable energy, and we produce part of our electricity with our own solar panels.

PRODUCT SAFETY

We want to be certain that our products are safe for the whole family. We do not use raw materials that are harmful to people or animals. We are the world's first parquet manufacturer to entirely give up the use of formaldehyde-containing adhesives in all products. That's why our products are particularly suitable for families with children and people with allergies.

10 GOOD REASONS TO CHOOSE TIMBERWISE

Timberwise is the world's best parquet. It is manufactured from the highest quality raw materials in Loimaa, Finland. The result is a unique combination of Finnish expertise, style and safety. Quality that can be felt at every step – from one generation to the next.

THE BEST WOOD

Our wooden floors are produced from high-quality European oak and ash as well as, e.g., Austrian larch.

AMAZING APPEARANCE

Timberwise selection is not only the most diverse, but also the most impressive.

MADE IN FINLAND

We are a Finnish family-owned company whose products are manufactured in Loimaa in Southwest Finland.

CLEAN AND SAFE INDOOR AIR

Our entire product selection is manufactured without harmful ingredients and formaldehyde-containing adhesives – as the first in the world.

ECOLOGICAL AND ETHICAL

Our raw material is sourced from Europe in compliance with ethical values and always from PEFC and FSC-certified forests.

STABLE STRUCTURE

Our unique birch plywood 3-layer structure guarantees a floor, which is significantly sturdier, more even and durable.

LASTS AND LASTS

Our glued joints are designed to endure even the most extreme conditions.

A WOODEN FLOOR IS MEASURED BY ITS SURFACE

The diverse colour and surface treatments give your Timberwise wooden floor character and durability.

EASY TO INSTALL

Timberwise wooden floors are some of the easiest and fastest to install on the market.

SUITABLE FOR UNDERFLOOR HEATING

Our wooden floors can safely be installed on an underfloor heating system.

WOOD SPECIES AND GRADES

OAK

Quercus robur

- Hard and wear-resistant wood species
- PEFC-certified European white oak
- Brinell hardness 2.9–4.1 HB

SPECIES DESCRIPTION AND APPEARANCE

There are approximately 200–300 different species of oak in the world. An oak grows to 30 metres in up to 300 years. Oak is a hard, heavy and strong, as well as fairly straight-grained wood. It is warm brown in colour. The sapwood and heartwood are clearly distinguishable. The heartwood colour darkens with age. The reflective patterns caused by the medullary rays are typical of oak's appearance.

OAK AS A FLOORING MATERIAL

As a flooring material, oak is hard and durable and a safe choice for almost all kinds of interiors. Considering its weight, oak does not move much and is therefore a popular interior decoration material. Timberwise uses PEFC-certified European white oak.

OAK SELECT

The Select grade is carefully selected, evenly coloured and almost knotless. The grade allows the filling of pin knots, the natural reflective pattern of oak – the pattern created by the medullary rays of the tree, and the colour variation caused by the grain pattern.

OAK CLASSIC

Classic is a natural-looking grade, with the natural grain pattern and colour variation of the wood clearly visible. The natural knottiness of the wood, with a limited size and number of knots, is allowed within the Classic grade. The Classic grade also allows small knot groups, the so-called cat paws, as well as the filling of knots.

OAK RUSTIC

True to its name, Rustic is a knotty grade. The Rustic grade is characterised by strong colour variations and an unlimited number of both small and large knots. Small depressions in knot fillings are allowed.

OAK VINTAGE

The Oak Vintage grade is similar to the Rustic grade, except that it also allows large filled knots and cracks. An old and authentic-looking grade with several different tones available.

ASH

Fraxinus excelsior

- Hard and wear-resistant wood species
- PEFC-certified European wood
- Brinell hardness 3.2–4.7 HB

LARCH

Larix decidua and Larix sibirica

- Strong colour variation and knottiness
- PEFC-certified larch
- Brinell hardness 2.2–3.0 HB

SPECIES DESCRIPTION AND APPEARANCE

Ash is a hardwood deciduous tree which grows in humid areas of Europe, Caucasia and Asia Minor. The heartwood and sapwood are clearly distinguishable. The sapwood is thick and almost white. The heartwood is sharply distinguished as grey, brownish or olive-coloured. The wood is unevenly patterned with different tones, veined or striped, and this gives it a very decorative appearance. The wood is resilient, heavy and hard.

ASH AS A FLOORING MATERIAL

As a flooring material, ash is hard and durable. Different surface treatment options give ash character and make it a very trendy flooring material. In addition to residential rooms, ash is also excellently suited for use in public spaces where a bold and unique look is desired.

SPECIES DESCRIPTION AND APPEARANCE

Larch is a valued softwood species. The colour of its heartwood is reddish brown. The sapwood is light coloured. The timber is characterised by the strongly developed heartwood and summerwood parts. One of the central characteristics of this wood species is its better wear resistance compared with other softwood species. It is also more sensitive to variations in humidity and dryness than hardwood. The wood is very rot-resistant and resilient.

LARCH AS A FLOORING MATERIAL

As a flooring material, larch is significantly harder than other softwood. Its tightly grained look and beautiful, reddish-brown colour are perfectly suited for many locations where a durable and distinctive flooring is desired. Larch flooring combines a sumptuous appearance with good wear resistance.

ASH SELECT

The Select grade is carefully selected, subdued and almost knotless with an evenly coloured general tone. For this harmonic grade, the natural colour variation caused by the grain pattern, as well as healthy light pin knots are allowed.

ASH CLASSIC

Classic is a natural-looking grade with clearly visible natural grain pattern, colour variation and small dark knots. The general tone of Classic is slightly darker than in Select. Within the Classic grade, filling of knots is allowed.

ASH OLIVE

The Olive grade has been named after the dark heartwood, also known as 'olive'. The variation in appearance between different boards may be significant, and some of the boards may be without the dark heartwood. Knots, knot groups and filling of knots are also allowed for this grade.

LARCH: GRADES

Larch is manufactured in a single standard grade which allows the natural grain pattern of the wood, colour variation and, in addition to natural knots, also round and filled knots, knot cracks and pitch pockets.

NOTE!

Larch is characterised by its knottiness and significant colour variations. The colour of larch naturally varies from a light yellowish to a reddish colour.

TREATMENT OPTIONS AND SURFACE TREATMENTS

TREATMENTS

BRUSHED

The Timberwise wooden floors are brushed with special nylon brushes, that bring the grain pattern to the surface, making it wear-resistant and pleasant for the feet. The brushed surface is an excellent choice for families with pets and children, since scratch marks and wear do not show as easily on brushed surfaces as they do on sanded surfaces.

SANDED

Sanding is a traditional treatment that accentuates the wood's natural appearance and hardness. The benefits of the sanded surface are its evenness and smoothness, but when treated with wax oil or natural oil, it also wears and scratches more easily. That's why we recommend the sanded surface for less-used rooms.

SURFACE TREATMENTS

LACQUERED

The silky lacquer treatment gives the floor more wear resistance than wax oil, so it is a particularly good choice for heavily used spaces, such as hallways, foyers, and kitchens. Our selection includes colour tones that are available both as matte lacquered and wax oiled. This allows combining floors with different wear resistance properties into a uniform, even-coloured whole.

WAX OILED

Flooring treated with a vegetable-based oil is ready-to-install directly from the package. The UV-hardened surface is also ecological, breathable, and dirt and moisture resistant. In addition, it is easy to clean, maintain and repair. Since the surface is satin or matte-finished, it is not slippery. This makes the wax oiled surface particularly child and pet friendly.

NATURAL OILED

Natural oil has been used for centuries, and the beautiful natural matte surface is particularly popular in Central Europe. Natural oil flooring requires several treatments to become saturated, and it has a shorter maintenance interval than a UV-hardened wax oil flooring. That's why a natural oil flooring is well suited for classic and traditional interiors where the floor is regularly maintained.

Oak Classic POLAR – brushed, matte lacquered

Ash Select POLAR – brushed, matte lacquered

POLAR

POLAR is a gorgeous opaque white tone that gives all interiors a fresh look. As a flooring, it is extremely stylish and easy to combine with both dark and light interiors. The brushed surface accentuates the grain pattern and is pleasant for the feet. The matte lacquering gives the floor a durable and beautiful satin surface.

Only a small part of the floor is shown in the pictures. Note that wood is a natural material, due to which the tones and grain patterns always vary naturally. Due to printing technical reasons, the printed image does not fully correspond to the actual colour of the product.

Wood species: Oak, Ash
Grades: Select, Classic and Rustic
Treatment: Brushed
Surface treatment: Matte lacquered

Only a small part of the floor is shown in the pictures. Note that wood is a natural material, due to which the tones and grain patterns always vary naturally. Due to printing technical reasons, the printed image does not fully correspond to the actual colour of the product.

Oak Classic ANTARCTIS – brushed, matte lacquered

Ash Select ANTARCTIS – brushed, matte lacquered

ANTARCTIS

ANTARCTIS is suited for many interior decoration styles. The light tone accentuates natural light, making the interior harmonic and balanced. The brushed and matte lacquered surface subtly brings out the wood's natural tone and grain pattern, giving the floor a beautiful and durable satin surface.

Wood Species: Oak, Ash
Grades: Select, Classic, Rustic
Treatment: Brushed
Surface treatment: Matte lacquered

Only a small part of the floor is shown in the pictures. Note that wood is a natural material, due to which the tones and grain patterns always vary naturally. Due to printing technical reasons, the printed image does not fully correspond to the actual colour of the product.

Ash Classic SNOW WHITE – sanded, wax oiled

SNOW WHITE

SNOW WHITE is a beautiful, transparent white wax oiled flooring. This harmonic tone enhances the impression of brightness and is suited for many interior styles. Due to the UV-hardened transparent wax oil, the wood's grain pattern shows beautifully on the white surface of the floor, making it durable and easy to maintain. Available for ash and larch, only as wax oiled.

Wood Species: Ash, Larch
Grades: Select, Classic, Rustic
Treatments: Sanded, brushed for larch
Surface treatment: Wax oiled

Oak Beach House White - brushed, matte lacquered

BEACH HOUSE WHITE

BEACH HOUSE WHITE is a gorgeous flooring with character. Each floorboard is separately brushed and a white surface treatment is applied. The oak's natural tone is more visible in some boards than in others, which makes each floor completely unique. Due to the brushing and matte lacquering, scratch marks on the floor are not a nuisance, but - quite to the contrary - part of its character.

Only a small part of the floor is shown in the pictures. Note that wood is a natural material, due to which the tones and grain patterns always vary naturally. Due to printing technical reasons, the printed image does not fully correspond to the actual colour of the product.

Wood species: Oak
Grades: Select, Classic, Rustic
Treatment: Brushed
Surface treatment: Matte lacquered

Only a small part of the floor is shown in the pictures. Note that wood is a natural material, due to which the tones and grain patterns always vary naturally. Due to printing technical reasons, the printed image does not fully correspond to the actual colour of the product.

Larch COTTON - brushed, wax oiled

COTTON

True to its name, COTTON is a white and cotton-like flooring, in which brushing plays a major role. The tone is suggestive of the old, beautifully antiqued wooden floors - a suitable foundation for both modern and traditional interior decoration styles.

Wood species: Larch
Grade: Rustic
Treatment: Brushed
Surface treatment: Wax oiled

Only a small part of the floor is shown in the pictures. Note that wood is a natural material, due to which the tones and grain patterns always vary naturally. Due to printing technical reasons, the printed image does not fully correspond to the actual colour of the product.

Ash Select – sanded, white wax oiled

Ash Select – sanded, white wax oiled

WHITE WAX OILED

Subdued, serene, beautiful and classic are few of the words to describe our white wax oiled parquet. The transparent wax oil allows the wood's natural tone to show through while lightening it slightly. A white wax oiled flooring is a traditional surface treatment that suits several styles, and it's very popular particularly in the Nordic countries. The UV-hardened wax oil treatment makes it durable and easy to maintain.

Wood species: Ash
Grades: Select, Classic, Olive
Treatment: Sanded
Surface treatment: Wax oiled

Ash Olive – sanded, white matte lacquered

Only a small part of the floor is shown in the pictures. Note that wood is a natural material, due to which the tones and grain patterns always vary naturally. Due to printing technical reasons, the printed image does not fully correspond to the actual colour of the product.

WHITE MATTE LACQUERED

White matte lacquering is one of the most traditional flooring treatments, and has been manufactured for decades. The surface treatment whitens the wood's surface tone, while allowing the wood's natural tone and grain pattern to show through.

Wood Species: Ash, Oak
Grades: Select, Classic, Rustic, Olive
Treatment: Brushed, Sanded for ash
Surface treatment: Matte lacquered

WHITE CREAM

As the name suggests, WHITE CREAM is a warm and creamy tone with a white hue. It is a particularly good choice for classic interiors where a fresh, modern and bright appearance is desired.

Only a small part of the floor is shown in the pictures. Note that wood is a natural material, due to which the tones and grain patterns always vary naturally. Due to printing technical reasons, the printed image does not fully correspond to the actual colour of the product.

Wood species: Oak
Grades: Select, Classic, Rustic
Treatment: Brushed
Surface treatment: Wax oiled

Only a small part of the floor is shown in the pictures. Note that wood is a natural material, due to which the tones and grain patterns always vary naturally. Due to printing technical reasons, the printed image does not fully correspond to the actual colour of the product.

CREAM

True to its name, CREAM has a creamy white tone. As a floor, it is classic, subdued, and stylish. Cream is an excellent choice for rooms where warm and soft tones are desired. The brushing of the surface brings out the wood's grain pattern beautifully with subtle accentuation.

Wood species: Oak
Grades: Select, Classic, Rustic
Treatment: Brushed
Surface treatments: Matte lacquered, Wax oiled

Only a small part of the floor is shown in the pictures. Note that wood is a natural material, due to which the tones and grain patterns always vary naturally. Due to printing technical reasons, the printed image does not fully correspond to the actual colour of the product.

ARCTIC

ARCTIC is a fairly light and slightly beige-coloured flooring, where the wood grains stand out lighter than the undertone. Arctic is an impressive flooring with character. It feels pleasant on the feet and is suited for both light and dark interiors. The UV-hardened wax oil surface is durable and easy to maintain. Arctic is one of the first Timberwise treatment tones and still one of the most popular.

Wood species: Oak, Larch

Grades: Select, Classic, Rustic

Treatment: Brushed

Surface treatments: Wax oiled and Matte lacquered (Oak), Wax oiled (Larch)

Only a small part of the floor is shown in the pictures. Note that wood is a natural material, due to which the tones and grain patterns always vary naturally. Due to printing technical reasons, the printed image does not fully correspond to the actual colour of the product.

SNÖHETTA

SNÖHETTA has a very natural light tone, like a freshly planed oak plank. It is well suited for all kinds of interior decoration styles and easy to combine with various colours. Snöhetta is a long-term investment, that stands the test of time and goes with a variety of style trends. That's why it's also one of our most popular tones.

Wood species: Oak
Grades: Select, Classic, Rustic
Treatments: Brushed, Sanded
Surface treatments: Wax oiled, Matte lacquered

Only a small part of the floor is shown in the pictures. Note that wood is a natural material, due to which the tones and grain patterns always vary naturally. Due to printing technical reasons, the printed image does not fully correspond to the actual colour of the product.

SKY WHITE

SKY WHITE has a light and transparent tone. It resembles planed oak with a touch of white. The general appearance of Sky White is unembellished and Scandinavian, and it's particularly well suited for streamlined Nordic interior decoration styles.

Wood species: Oak
Grades: Select, Classic, Rustic
Treatment: Sanded, Brushed
Surface treatment: Wax oiled

Only a small part of the floor is shown in the pictures. Note that wood is a natural material, due to which the tones and grain patterns always vary naturally. Due to printing technical reasons, the printed image does not fully correspond to the actual colour of the product.

Larch NORDIC - brushed, wax oiled

Oak NORDIC - brushed, wax oiled

NORDIC

NORDIC has the same light and harmonic tone as a freshly planed oak plank. It goes together well with all kinds of interior decoration styles and it's easy to combine with various colours. Nordic is a long-term investment that stands the test of time very well and goes with a variety of interior styles.

Wood species: Oak, Larch
Grades: Select, Classic, Rustic
Treatments: Sanded, Brushed
Surface treatments: Wax oiled, Matte lacquered

Oak Classic – brushed, wax oiled

Only a small part of the floor is shown in the pictures. Note that wood is a natural material, due to which the tones and grain patterns always vary naturally. Due to printing technical reasons, the printed image does not fully correspond to the actual colour of the product.

Larch – brushed, wax oiled

Ash Select – sanded, wax oiled

WAX OILED

Wax oil is a clear surface treatment that accentuates the wood's natural look and tone beautifully. It's an excellent choice for those who appreciate durability and timeless classic flooring. The UV-hardened wax oil provides a surface that is easy to keep clean, and it's available with a sanded surface for all wood species, as well as with a brushed surface for oak and larch.

Wood Species: Oak, Ash, Larch
Grades: Select, Classic, Rustic, Vintage, Olive
Treatments: Sanded (all wood species), Brushed (oak and larch)
Surface treatment: Wax oiled

RUKA

RUKA is a brown tone that is slightly lighter than the natural tone of oak. Due to its natural look, it is suited for a variety of interiors and styles. Only available with a sanded surface.

Only a small part of the floor is shown in the pictures. Note that wood is a natural material, due to which the tones and grain patterns always vary naturally. Due to printing technical reasons, the printed image does not fully correspond to the actual colour of the product.

Wood species: Oak
Grades: Select, Classic, Rustic, Vintage
Treatment: Sanded
Surface treatments: Wax oiled, Matte lacquered

Oak Vintage SUOMU – sanded, wax oiled

Only a small part of the floor is shown in the pictures. Note that wood is a natural material, due to which the tones and grain patterns always vary naturally. Due to printing technical reasons, the printed image does not fully correspond to the actual colour of the product.

SUOMU

SUOMU has an oaken brown tone. The added white colour accentuates the wood's grain pattern and gives the floor a fresher general appearance. It suits both traditional and modern interior decoration styles perfectly. Suomu is only available as sanded.

Wood species: Oak
Grades: Select, Classic, Rustic, Vintage
Treatments: Sanded
Surface treatments: Wax oiled, Matte lacquered

FROST

FROST is the perfect choice for decors where a greyish and clearly cool tone is desired. The brushing brings the wood's grain pattern to the surface, making it stand out lighter against the undertone.

Only a small part of the floor is shown in the pictures. Note that wood is a natural material, due to which the tones and grain patterns always vary naturally. Due to printing technical reasons, the printed image does not fully correspond to the actual colour of the product.

Wood species: Oak
Grades: Select, Classic, Rustic
Treatment: Brushed
Surface treatment: Wax oiled

GLITTERTIND

GLITTERTIND is a dual-toned product with a greyish white undertone. Due to the tinting and brushing, the grain pattern stands out as almost black. A modern and bold choice that gives the decor definition and character – suited for loft and industrial-type homes as well as for modern spaces. Available for oak as matte lacquered.

Only a small part of the floor is shown in the pictures. Note that wood is a natural material, due to which the tones and grain patterns always vary naturally. Due to printing technical reasons, the printed image does not fully correspond to the actual colour of the product.

Wood species: Oak
Grades: Select, Classic, Rustic
Treatment: Brushed
Surface treatment: Matte lacquered

Only a small part of the floor is shown in the pictures. Note that wood is a natural material, due to which the tones and grain patterns always vary naturally. Due to printing technical reasons, the printed image does not fully correspond to the actual colour of the product.

HUSKY

HUSKY is a grey matte tone inspired by fells and cool glaciers. The brushing accentuates the grain pattern, and slight colour variation between the floorboards is allowed. Husky creates a beautiful background for a light-coloured and streamlined decor, but it also helps to give an opulent interior a more harmonic look.

Wood species: Oak
Grades: Select, Classic, Rustic
Treatment: Brushed
Surface treatment: Matte lacquered

Oak Herringbone GREY – brushed, wax oiled

Oak Classic GREY – brushed, matte lacquered

GREY

GREY is a greyish transparent tone that doesn't hide the oak's natural tone, but allows some of it show through. Grey can be used with almost any colour scheme and decor, and it's a long-term investment that pleases the eye for a long time. That's why it is also one of our most popular tones. Available for oak as both wax oiled and matte lacquered.

Only a small part of the floor is shown in the pictures. Note that wood is a natural material, due to which the tones and grain patterns always vary naturally. Due to printing technical reasons, the printed image does not fully correspond to the actual colour of the product.

Wood species: Oak
 Grades: Select, Classic, Rustic
 Treatment: Brushed
 Surface treatments: Matte lacquered, Wax oiled

LYNGEN

LYNGEN is a greyish tone rich in nuances, and its slightly opaque surface gives it a harmonic and calm look. Lyngen was originally developed for Norway, where it is one of the most popular Timberwise tones.

Only a small part of the floor is shown in the pictures. Note that wood is a natural material, due to which the tones and grain patterns always vary naturally. Due to printing technical reasons, the printed image does not fully correspond to the actual colour of the product.

Wood species: Oak
Grades: Select, Classic, Rustic
Treatment: Brushed, Sanded, Wax oiled
Surface treatment: Matte lacquered

LOFOTEN

LOFOTEN is a light greyish tone with a touch of lichen. It has a calm, beautiful, and airy appearance. Lofoten is the perfect choice for interiors where organic natural materials play a major role.

Only a small part of the floor is shown in the pictures. Note that wood is a natural material, due to which the tones and grain patterns always vary naturally. Due to printing technical reasons, the printed image does not fully correspond to the actual colour of the product.

Wood species: Oak
Grades: Select, Classic, Rustic
Treatment: Brushed
Surface treatment: Wax oiled

Oak Classic MOONSTONE - sanded, wax oiled

Oak Vintage MOONSTONE - sanded, wax oiled

MOONSTONE

MOONSTONE has a light transparent grey tone that boldly allows the oak's own natural tone to show through. The tone reminds of the colours of lichen-covered fells and Nordic nature, which are particularly accentuated in the distinctive Vintage grade. Available for oak as wax oiled and matte lacquered. Only available with a sanded surface.

Only a small part of the floor is shown in the pictures. Note that wood is a natural material, due to which the tones and grain patterns always vary naturally. Due to printing technical reasons, the printed image does not fully correspond to the actual colour of the product.

Wood species: Oak
Grades: Select, Classic, Rustic
Treatment: Sanded
Surface treatments: Wax oiled, Matte lacquered

Only a small part of the floor is shown in the pictures. Note that wood is a natural material, due to which the tones and grain patterns always vary naturally. Due to printing technical reasons, the printed image does not fully correspond to the actual colour of the product.

SILVER

SILVER is a dual-toned product with a light grey undertone. Due to the tinting and brushing, the wood's grain pattern stands out as white. Silver is a unique, attractive and versatile flooring choice with a lot of character. Only available as brushed.

Wood species: Oak
Grades: Select, Classic, Rustic
Treatment: Brushed
Surface treatments: Wax oiled, Matte lacquered

LEVI

LEVI has a grey tone. It is suggestive of the northern kelo wood logs and is a beautiful floor choice with plenty of character. Due to the grey transparent wax oil, the flooring looks natural despite the tinting. Levi is suited for both more traditional and modern decors.

Only a small part of the floor is shown in the pictures. Note that wood is a natural material, due to which the tones and grain patterns always vary naturally. Due to printing technical reasons, the printed image does not fully correspond to the actual colour of the product.

Wood species: Oak
Grades: Select, Classic, Rustic, Vintage
Treatment: Sanded
Surface treatments: Wax oiled, Matte lacquered

TITAN

TITAN is an elegant and classic light grey flooring. It is characterised by its dual-tone coloration: the brushed surface and tinting make the wood's grain pattern stand out as slightly darker than the undertone. The matte lacquer gives the flooring a fantastic appearance while making it durable and easy-to-maintain.

Only a small part of the floor is shown in the pictures. Note that wood is a natural material, due to which the tones and grain patterns always vary naturally. Due to printing technical reasons, the printed image does not fully correspond to the actual colour of the product.

Wood species: Oak
Grades: Select, Classic, Rustic
Treatment: Brushed
Surface treatment: Matte lacquered

FERRO

FERRO is a dual-toned dark grey flooring where the wood's grain pattern stands out as darker than the undertone. The brushing of the surface accentuates the wood's grain pattern and the graphic look of the flooring. The matte lacquer makes it durable and easy to maintain. Ferro is a masculine choice with an edge. It is exceptionally well suited for loft and industrial-type interior decoration styles, and it gives structure to light, modern, and streamlined decors.

Only a small part of the floor is shown in the pictures. Note that wood is a natural material, due to which the tones and grain patterns always vary naturally. Due to printing technical reasons, the printed image does not fully correspond to the actual colour of the product.

Wood species: Oak
Grades: Select, Classic, Rustic
Treatment: Brushed
Surface treatment: Matte lacquered

YLLÄS

YLLÄS is an impressive and beautiful tone. Its dark grey, almost opaque, treatment comprehensively accentuates different colours and interior decoration styles. The subtle blueish and lilac hues are characteristic to Ylläs flooring.

Only a small part of the floor is shown in the pictures. Note that wood is a natural material, due to which the tones and grain patterns always vary naturally. Due to printing technical reasons, the printed image does not fully correspond to the actual colour of the product.

Wood species: Oak
Grades: Select, Classic, Rustic
Treatment: Sanded
Surface treatment: Matte lacquered

Only a small part of the floor is shown in the pictures. Note that wood is a natural material, due to which the tones and grain patterns always vary naturally. Due to printing technical reasons, the printed image does not fully correspond to the actual colour of the product.

LINEN

LINEN has a beautiful earthy greyish brown tone. Due the neutral tone, it is suited for both traditional and modern decors. The brushing and tinting bring out the wood's grain pattern beautifully and enhance its natural exuberance. Available for larch as brushed and wax oiled.

Wood species: Larch
Grade: Rustic
Treatment: Brushed
Surface treatment: Wax oiled

BOLE

True to its name, BOLE, which means tree trunk, is strong and durable. This flooring gets its beautiful hues from Finnish nature. The colours of bark, lichen, rock, and frost together create a wonderful harmonic combination of grey, brown and white. The brushing of the surface accentuates the grain pattern and the matte lacquer gives the flooring a fantastic appearance, while making it durable and easy to maintain. This tone is playfully called the most dirt and dust-friendly tone.

Only a small part of the floor is shown in the pictures. Note that wood is a natural material, due to which the tones and grain patterns always vary naturally. Due to printing technical reasons, the printed image does not fully correspond to the actual colour of the product.

Wood species: Oak
Grades: Select, Classic, Rustic, Vintage
Treatment: Brushed
Surface treatment: Matte lacquered

PALLAS

PALLAS is a greyish brown tone. It creates a balanced and peaceful atmosphere for the interior, while allowing the play of light and shadow on the oak's naturally beautiful surface pattern.

Only a small part of the floor is shown in the pictures. Note that wood is a natural material, due to which the tones and grain patterns always vary naturally. Due to printing technical reasons, the printed image does not fully correspond to the actual colour of the product.

Wood species: Oak
Grades: Select, Classic, Rustic, Vintage
Treatment: Sanded
Surface treatments: Wax oiled, Matte lacquered

LUOSTO

LUOSTO is a popular light brown tone that resembles the natural surface of aged oak. The brushing brings out the grain pattern beautifully, without accentuating it too much.

Only a small part of the floor is shown in the pictures. Note that wood is a natural material, due to which the tones and grain patterns always vary naturally. Due to printing technical reasons, the printed image does not fully correspond to the actual colour of the product.

Wood species: Oak
Grades: Select, Classic, Rustic, Vintage
Treatment: Brushed
Surface treatments: Wax oiled, Matte lacquered

ANTIQUE

ANTIQUE is a warm brown flooring that imitates the tone of oak that has aged naturally due to the effect of UV light. The brushing makes the wood's grain pattern stand out as slightly darker than the undertone.

Only a small part of the floor is shown in the pictures. Note that wood is a natural material, due to which the tones and grain patterns always vary naturally. Due to printing technical reasons, the printed image does not fully correspond to the actual colour of the product.

Wood species: Oak
Grades: Select, Classic, Rustic
Treatment: Brushed
Surface treatments: Wax oiled, Matte lacquered

COGNAC

COGNAC is one of the first Timberwise tones, and has remained popular over the years. Surprisingly, many interior decoration colours go with this warm-coloured flooring. Cognac gives any room a cosy and intimate feel.

Only a small part of the floor is shown in the pictures. Note that wood is a natural material, due to which the tones and grain patterns always vary naturally. Due to printing technical reasons, the printed image does not fully correspond to the actual colour of the product.

Wood species: Oak, Larch
Grades: Select, Classic, Rustic, Vintage
Treatments: Brushed
Surface treatments: Wax oiled and Matte lacquered (Oak), Wax oiled (Larch)

LYNGSALPENE

LYNGSALPENE has a brownish tone that is slightly darker than oak's natural colour. The tone is balanced, subdued, and beautiful. Lyngsalpene is particularly well suited for decors where a calm and serene atmosphere is appreciated.

Only a small part of the floor is shown in the pictures. Note that wood is a natural material, due to which the tones and grain patterns always vary naturally. Due to printing technical reasons, the printed image does not fully correspond to the actual colour of the product.

Wood species: Oak
Grades: Select, Classic, Rustic
Treatments: Sanded, Brushed
Surface treatments: Wax oiled, Matte lacquered

Only a small part of the floor is shown in the pictures. Note that wood is a natural material, due to which the tones and grain patterns always vary naturally. Due to printing technical reasons, the printed image does not fully correspond to the actual colour of the product.

JOTUNHEIMEN

JOTUNHEIMEN is an impressive dual-toned and warm flooring whose dark reddish tone is the result of the heat treatment of the wood. Due to the tinting and brushing, the wood's grain pattern stands out as white. The effect of UV light shows more quickly and clearly on the heat treated surface, which makes this flooring suitable for rooms with only a few pieces of furniture or where they are regularly moved. Only available as the Rustic grade.

Wood species: Oak
Grades: Rustic
Treatment: Brushed
Surface treatment: Wax oiled (heat treated)

SEACLAM

SEACLAM is a nuanced brown flooring with beautiful hues of grey and white. The grain pattern, which has been accentuated by brushing and tinting it white, gives the flooring a fresher general appearance. Seaclam is particularly dirt and dust-friendly.

Only a small part of the floor is shown in the pictures. Note that wood is a natural material, due to which the tones and grain patterns always vary naturally. Due to printing technical reasons, the printed image does not fully correspond to the actual colour of the product.

Wood species: Oak
Grades: Select, Classic, Rustic
Treatment: Brushed
Surface treatments: Wax oiled, Matte lacquered

Only a small part of the floor is shown in the pictures. Note that wood is a natural material, due to which the tones and grain patterns always vary naturally. Due to printing technical reasons, the printed image does not fully correspond to the actual colour of the product.

TMT DARK

TMT, or Thermally Modified Timber, gets its name and dark reddish hue from heat treatment. The surface layer is tinted throughout, so when the surface is distressed, the scratches will not appear lighter from the rest of the floor. The heat treated flooring is more prone to colour changes due to the effect of UV light. Therefore, it is recommended that the places of rugs and furniture are changed from time to time or removed for a while. This way the colour change on the floor remains natural and even.

Wood species: Oak
Grades: Classic, Rustic
Treatment: Brushed
Surface treatment: Matte lacquered

SMOKED LIGHT

SMOKED LIGHT is a dark brown tone with a slightly milky surface. In addition to the smoke treatment, the flooring is white wax oiled, which lightens its general tone slightly. The surface layer is tinted throughout, so when the surface is distressed, the scratches will not appear lighter from the rest of the floor. Smoked Light is an excellent choice for example heavily used public spaces where a dark floor is desired. The smoke treatment also creates great colour variation in the floorboards. This is characteristic of the flooring and should be taken into consideration. Mainly available in Rustic grade.

Only a small part of the floor is shown in the pictures. Note that wood is a natural material, due to which the tones and grain patterns always vary naturally. Due to printing technical reasons, the printed image does not fully correspond to the actual colour of the product.

Oak EBEN - brushed, wax oiled

EBEN

EBEN is one of the first Timberwise tones and still quite popular. It is a tone that gives any room an impressive and dramatic look. The brushing brings out the beautiful grain pattern as slightly darker than the undertone. Available for oak and ash as wax oiled, matte lacquered, and brushed. Only available for larch as wax oiled and brushed.

Wood species: Oak, Ash, Larch
Grades: Select, Classic, Rustic
Treatment: Brushed
Surface treatments: Wax oiled, Matte lacquered

Only a small part of the floor is shown in the pictures. Note that wood is a natural material, due to which the tones and grain patterns always vary naturally. Due to printing technical reasons, the printed image does not fully correspond to the actual colour of the product.

CHOCO

As the name suggests, CHOCO is a dark, rich and chocolaty tone. Due to its dark brown colour, it allows the furniture and decorations to stand out beautifully. Therefore, it's well suited for various interior decoration styles.

Wood species: Oak
Grades: Select, Classic, Rustic
Treatment: Brushed
Surface treatments: Wax oiled, Matte lacquered

Only a small part of the floor is shown in the pictures. Note that wood is a natural material, due to which the tones and grain patterns always vary naturally. Due to printing technical reasons, the printed image does not fully correspond to the actual colour of the product.

SMOKED

SMOKED is a smoke treated dark brown tone. The surface layer is tinted throughout, so when the surface is distressed, the scratches will not appear lighter from the rest of the floor. This makes the smoke treated flooring an excellent choice for public spaces where a dark floor is desired. The smoke treatment modifies each board separately, so great colour variation is possible and should be taken into account. Smoked is mainly available in Rustic grade.

Wood species: Oak
Grades: Rustic
Treatment: Sanded, Brushed
Surface treatments: Wax oiled, Matte lacquered

Larch BLUEBERRY – brushed, matte lacquered

Only a small part of the floor is shown in the pictures. Note that wood is a natural material, due to which the tones and grain patterns always vary naturally. Due to printing technical reasons, the printed image does not fully correspond to the actual colour of the product.

BLUEBERRY

BLUEBERRY, with its deep blue colour, is a beautiful, dark and very fashionable tone that gives your floor a completely new and unique look. Despite the opaque tone, the brushing brings out the wood's natural grain pattern beautifully.

Wood species: Oak, Larch
Grades: Select, Classic, Rustic
Treatment: Brushed
Surface treatment: Matte lacquered

COAL

COAL is the darkest Timberwise tone. The opaque coal grey tone is impressive and dramatic. Due to the brushing, the wood's natural grain pattern stands out beautifully despite the opaque surface.

Only a small part of the floor is shown in the pictures. Note that wood is a natural material, due to which the tones and grain patterns always vary naturally. Due to printing technical reasons, the printed image does not fully correspond to the actual colour of the product.

Wood species: Oak

Surface treatment: Matte lacquered

CUSTOM MADE

In CUSTOM MADE products, only your imagination is the limit! The tones Eucalyptus and Burgundy designed by interior stylist Susanna Vento, the bright tones Sunshine Yellow and Sky Blue, and the pastels Old Rose and Baby Blue are just a few examples among many. These tones can be tailored completely to match the needs, wishes or brand – for both companies and private individuals. If you cannot find a suitable tone from our wide colour selection, the Custom Made products are for you.

DESIGN WOODEN FLOORS

Timberwise Design wooden floors bring the traditional Finnish emission-free mosaic wooden floors to your home as larger, more impressive and easy to install. Our design selection can be installed in the traditional herringbone, tile, and basket weave patterns. The products designed by top designer Harri Koskinen break traditional boundaries and take parquet designs to a whole new level. The sizes of the design parquet boards are mainly multiples of themselves, so they can be installed in many versatile ways. This also enables our single plank wooden floors to be combined with patterned floors.

A STABLE STRUCTURE THAT LASTS FROM ONE GENERATION TO THE NEXT

Timberwise's unique birch plywood 3-layer structure makes your floor significantly sturdier, more even – and durable.

FINNISH BIRCH

The cross-glued 3-layer structure significantly reduces the hygroscopic changes in the wooden floor board. Hence, it's less prone to react to fluctuations in air humidity and temperature, in comparison with solid or 2-layer wooden floors. Possible hygroscopic changes take place inside the structure, so unlike solid floors, the 3-layer wooden floor rarely cracks.

Plywood-structured products are normally considered 2-layer structures, but unlike the Timberwise products, they do not have a counterbalance veneer. A counterbalance veneer adds a third layer to the product, enabling a floating installation that keeps the product stable.

As a pioneer in wood processing, Timberwise uses a 9-millimetre-thick Finnish hardwood birch plywood panel as the middle layer structure, as it is considerably more durable and stable than the generally used softwood plywood.

The hygroscopic changes of the frame are reduced due to the lack of the so-called mirroring effect in the birch plywood cross structure. The surface of the floor remains even and no wave effect occurs, which makes the product suitable for challenging conditions, like in Scandinavia, Southern Europe and the Middle East where temperatures and humidity vary according to the season. The mechanical durability of the floor also improves: the floor is more sturdy and durable.

TWO FIXING SYSTEMS – EASE AND DURABILITY

Timberwise wooden floors are available in two fixing systems: with WiseLoc locking, and with a traditional tongue and groove structure.

WISELOC SAVES TIME AND MONEY

The WiseLoc system is easy to install. The end joint is pressed down, and, thanks to a spring, it will be automatically fixed in. There is no need to install the flooring in rows, as it can also be installed one board at a time. This way the flooring can even be installed by one person – which makes the installation quick and brings savings in installation costs.

TONGUE AND GROOVE – TRADITIONAL AND DURABLE

The traditional tongue and groove is an excellent choice for example for holiday houses, where the indoor temperature and air humidity fluctuate more than in a home.

Due to the WiseLoc system, the Timberwise wooden floor is one of the easiest to install on the market.

The detailed parquet installation instructions are available on our website!

www.timberwiseparquet.com

EASY AND CAREFREE MAINTENANCE

The UV-hardened Timberwise wooden floors are the easiest to maintain on the market.

DURABILITY AND EASE OF MAINTENANCE YEAR AFTER YEAR

Maintaining Timberwise wooden floors is easy. The lacquers and wax oils we use are hardened with UV light during the production process, which makes the wood significantly more durable and easier to maintain than traditional oiled floors.

HOW TO MAINTAIN YOUR TIMBERWISE FLOOR

- Maintain an appropriate indoor humidity level (RH 30–65%) and the recommended temperature (+18– 24°C) during all seasons. In humid seasons (summer), adequate ventilation is required, and in dry seasons (winter), adequate air humidity must be ensured by using a humidifier.
- Prevent dust, sand and gravel from being carried along onto the parquet by placing doormats on both sides of the front door.
- Place a plastic mat under the shoes in the hallway to protect the parquet from water damage.
- Vacuum-clean and mop the floor regularly to prevent dirt from sticking to the floor surface.
- Use only a small amount of water when cleaning – the floor surface must be dry within a minute of mopping.
- Avoid using strong detergents, since they can dissolve the protective wax oil or lacquer layer on the floor.
- Avoid using excess amounts of detergent in order to prevent a dirt-collecting detergent layer from accumulating on the surface of the floor.
- Remove stains immediately.
- To prevent scratch marks on the floor, attach felt pads to the ends of furniture legs, and, in the case of an office chair with wheels, cover the floor underneath it.

MORE DETAILED MAINTENANCE INSTRUCTIONS CAN BE READ AT: www.timberwiseparquet.com

ACCESSORIES

The T-mouldings, stair nosings, and skirting boards toned to match your floor give your Timberwise parquet a stylish and elegant finish. Our installation and maintenance accessories guarantee a beautiful and durable flooring that lasts from one generation to the next.

SKIRTING BOARDS

Solid oak skirting boards are available in three different profiles, and they can be toned to match all Timberwise wooden floors. Our in-stock skirting

boards have been treated to a genuine oak surface. Timberwise also keeps a stock of two different profiles and seven different colours.

T-MOULDINGS

With the aid of T-mouldings, you can make the joints between different rooms unnoticeable, since they are the same colour as the floor itself. T-mouldings can also be used when the flooring material changes from parquet to another material. Just as our flooring material, T-mouldings can also be toned to match your Timberwise wooden floor.

STAIR NOSINGS

Stair nosings are available in three different profiles, and you can order any profile toned to match your Timberwise wooden floor. Stair nosings can be ordered with both a WiseLoc locking and traditional glued tongue and groove.

UNDERLAY MATERIAL

The underlay material of a floating parquet flooring should not be too thick or made of flexible material: the maximum compaction of the underlay material must not exceed 25% of the material thickness (2.4 tn/m²). By ordering the Timberwise underlay material, you ensure that your parquet is installed on proper underlay material. Our underlay material acts as both a moisture barrier and sound insulation material.

- Material: polyethylene foam with a 100-micron moisture barrier
- Thickness: 2 mm
- Width: 1,000 mm, overlapping 200 mm
- Roll size: 15 m²

MAINTENANCE SET

A separate maintenance set can be ordered for wax oiled floors. It includes a repair wax oil, clear surface wax oil, Wisch Fix detergent, and a maintenance and cleaning wax oil in a handy spray bottle. All maintenance products for lacquered floors can be suitable for Timberwise lacquered wooden floors.

Maintenance and repair instructions can be found on our website: www.timberwiseparquet.com.

Retailers of accessories and flooring materials are listed on our website at www.timberwiseparquet.com/distributors, and the information can also be obtained by contacting us at: info@timberwise.fi.

QUALITY IS IN THE DETAILS

THE BRINELL VALUE INDICATES THE HARDNESS OF THE WOOD SPECIES

The Brinell value denotes the degree of hardness of different wood species. The higher the Brinell value of the wood, the better the floor endures dents and wear. The adjacent table shows the average hardness values of the wood species used in the Timberwise wooden floors. For instance, the Brinell value of ash is 3.2-4.7.

AVAILABLE IN FIRE RATING C(FL) S₁-

EN ISO 9239-1:2010 standard

On special order, a fire rating treatment, which provides the higher fire rating C(fl) often required in public premises, is available for the standard 14,5-mm Timberwise products with a birch plywood structure. The product is ready for use right after installation without separate treatments, which saves time and costs on site. Additional information on fire rating treatment is provided at www.timberwiseparquet.com.

DIMENSIONS OF THE TIMBERWISE WOODEN FLOORS

Board widths:

- Products 158 mm, 185 mm, 230 and 270mm.
- 270-mm products only available with a traditional tongue and groove

Board thickness:

- Thickness 14.5 mm
- Oak and ash, surface layer thickness 3.5 mm
- Larch, surface layer thickness 4.5 mm
- Available special thickness 6.0 mm

Board lengths:

- 2,180 mm oak and ash
- 2,500 mm larch
- Allowed lengths are 2,180, 2,080, 2,000, and 1,818 mm
- One package always contains boards of identical lengths – no mixed lengths

Board bevels:

- 0.7 mm micro bevels on the long side
- 0.5 mm at the ends
- The micro bevels highlight the board's single plank look – they do not collect dirt and are easy to maintain!

Design wooden floors, dimensions

(width x length):

- 150 x 750 mm
- 158 x 790 mm
- 185 x 925 mm
- 230 x 920 mm

FOUR DIFFERENT WIDTH OPTIONS

You can choose your favourite board width from four different options. The board widths of the Timberwise wooden floors are 158 mm, 185 mm, 230 and 270 millimetres. These standard-size boards are available with both

a WiseLoc system and traditional tongue and groove, except for 270-mm boards, which come with tongue and groove.

Board widths:

THE NEW FORMS OF WOOD

Timberwise Design Projects is a tribute to Finnish design and wood processing. Its wooden floors, wall elements and utility items take a bold break from the traditions of wooden floor design and use. The project's first product families are the K2 and Twise. Finnish wooden floor manufacturer Timberwise is joined by top designers Harri Koskinen and Ville Kokkonen to design and produce this ground-breaking product range.
